France

tel: +33 476 00 65 00

2011, February 1st

Subject: Directive 2006/66/EC of the European Parliament and of the Council of 6 September 2006 on batteries and accumulators and waste batteries and accumulators and repealing Directive 91/157/EEC (the **Batteries Directive**)

To whom it may concern

Eaton Power Quality is fully committed to complying with all applicable laws and regulations regarding products and services.

For many years, Eaton Power Quality has observed a policy to reduce environmental impacts related to products and processes. We are continuously implementing technical and legal reviews and changes to comply with new requirements.

Home appliance products supplied by Eaton Power Quality (Certain Eaton UPS and accessories) incorporate portable batteries in the meaning of the Batteries Directive whereas our other products incorporate industrial batteries in the meaning of the Batteries Directive. Eaton Power Quality commits that these products are compliant with the Batteries Directive requirements.

Pursuant to Eaton Power Quality's commitment to comply with all applicable regulations and customer requests, Eaton Power Quality is closely monitoring changes to the Batteries Directive. We are taking all appropriate actions to prevent any changes to the Batteries Directive from having a negative impact on availability or quality of our products.

Apart from our commitment to comply with the Batteries Directive, Eaton Power Quality is also committed to assist your company in its compliance efforts, and strengthening our continuing business relationship with you.

Sincerely,

Nicolas Samman
PQD-EMEA Engineering Director.
