

Manufacturer's Declaration on IEC62040-4

Subject: International standard IEC 62040-4:2013 for Uninterruptible power systems (UPS) - Part 4: Environmental aspects - requirements and reporting

The manufacturer: Eaton Industries France (*Eaton*)
Declares the following for the product family: Eaton's Single-Phase UPS, ePDU products and related accessories

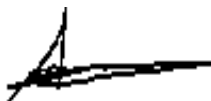

Eaton is fully committed to complying with the IEC 62040-4 standard.

We declare under our sole responsibility that Eaton's Single-Phase UPS, ePDU products and related accessories (see annex) comply with the Essential mandatory requirements (Clause 5.2) of the standard (IEC 62474 Material declaration, Product Environmental Profile, End of Life Instructions available upon request).

Life Cycle assessment results are available upon request for several products, complying with the Additional requirements (Clause 5.3.2).
